

Process Used to Develop the Wildland Fire Hazard Mitigation Plan

An Agreement was made between Fremont County and North Wind, Inc. to provide a Wildland Fire Hazard Mitigation Plan for Fremont County. This plan involved the County Commissioners, Fire District Chiefs, and other local officials.

The scope of work included:

- Collecting and compiling existing fire information from County, State, and/or Federal land management agencies.
- Identify any data gaps and collect field information.
- Assess problems, needs, and potential solutions through interview with Fire District personnel as well as elected county officials.
- Assess problems, needs, and potential solutions by 1) receiving input from the general public through a minimum of three (3) public meetings.
- Create an individual Wildland Fire Hazard Mitigation Plan for Fremont County by completing the following:
 - Evaluate the data and information from the Hazard Assessment
 - Meet with Fire District personnel and elected officials
 - Hold (3) public meetings to discuss findings from the Hazard Assessment and receive input related to mitigation planning
 - The Wildland Fire Hazard Mitigation Plan will include the following items:
 - Recommended action or actions
 - Location of mitigation projects
 - Discussion of physical, biological, and social resources that may be affected
 - Alternatives that were considered
 - Time frame for implementation and priority of mitigation projects
 - Funding anticipated and potential sources
 - Implementation of the specific mitigation projects
